

oomph::DistributableLinearAlgebraObject

```
classDiagram
    class oomph_DistributableLinearAlgebraObject["oomph::DistributableLinearAlgebraObject"]
    class oomph_Preconditioner["oomph::Preconditioner"]
    class oomph_SuperLUPreconditioner["oomph::SuperLUPreconditioner"]
    oomph_Preconditioner --|> oomph_DistributableLinearAlgebraObject
    oomph_SuperLUPreconditioner --|> oomph_Preconditioner
```

The diagram illustrates a class hierarchy. At the top is the class `oomph::DistributableLinearAlgebraObject`, represented by a solid rectangular box. Below it is a dashed rectangular box containing the class `oomph::Preconditioner`. At the bottom is the class `oomph::SuperLUPreconditioner`, represented by a solid rectangular box. A solid vertical arrow points from the top of the `oomph::Preconditioner` box to the bottom of the `oomph::DistributableLinearAlgebraObject` box. Another solid vertical arrow points from the top of the `oomph::SuperLUPreconditioner` box to the bottom of the `oomph::Preconditioner` box.
