Chapter 1

Contact/Get Involved

We welcome any feedback (such as bug reports, suggestions for improvement and other constructive criticism) and would particularly love to hear from you if the library has helped you to solve any of your problems.

We also welcome contributions to the library itself, in the form of

- Additional demo codes/tutorials
- Code that provides additional functionality to the library.

Please consult the library's GitHub repository for details on how to submit bug fixes (or at least bug reports) and how to contribute.

The oomph-lib developers can be contacted directly

or, if you really want, via snail mail to:

Matthias Heil and Andrew Hazel
Department of Mathematics
University of Manchester
